

# Philips LTIX 2000W H

## Product family description

Standard Xenon Cinema lamps — sunlight quality, alwaysThe Standard Xenon Cinema lamp's pure, white light has the same spectral distribution as the sun, to ensure that vibrant, natural colors are faithfully presented. The pure xenon gas used in these standard cinema projector lamps ensures constant color properties for the entire lifetime of the lamp. The result? Excellent screen presentations time after time. In addition, the high arc stability ensures flicker-free operation and a great viewing experience for the audience. And, because hot re-strike is possible, the lamp is available to perform at any time.

### **Product Features**

- · Pure Xenon fill gas
- Approximately 6000K color temperature
- Hot restrike
- · High arc stability

#### **Product Benefits**

- Constant color properties for the life of the lamp
- Pure, white light, matching the spectra distribution of the sun
- Hot re-ignition is possible ensuring the availability of the light at any time
- Provides flicker-free operation
