## Product family description

Standard Xenon Cinema lamps — sunlight quality, alwaysThe Standard Xenon Cinema lamp's pure, white light has the same spectral distribution as the sun, to ensure that vibrant, natural colors are faithfully presented. The pure xenon gas used in these standard cinema projector lamps ensures constant color properties for the entire lifetime of the lamp. The result? Excellent screen presentations time after time. In addition, the high arc stability ensures flicker-free operation and a great viewing experience for the audience. And, because hot re-strike is possible, the lamp is available to perform at any time.
